Samples of freelance work	
September 2012 - Present	Ushahidi theme for PowerCuts.in (India) (http://powercuts.in/)
Description	PowerCuts.IN is an initiative to crowdsource information from Twitter, Mobile Web, SMS, Smartphone Apps about power cuts in India. The main task was to convert an already existing design idea into a Ushahidi theme. + Technologies: Ushahidi CMS, PHP, CSS, Photoshop, Twitter media integration.
February 2012 - June 2012	Website design and coding for Foldinglist.com (Timisoara/Romania) (http://www.foldinglist.com/)

Description	Foldinglist is an web application which aim to be the perfect place where users from everywhere can search information about movies, make their own list and share information with others. I developed most of the entire application myself : design, logo, template slicing, PHP backend code and SQL data model. + Technologies: PHP, SQL, CSS, Javascript (jQuery), Photoshop, various social media integration (ShareThis, etc.)
August 2011 - October 2011	Wiki/Trac design for Buzzcapture BV. Amsterdam/Netherlands (http://www.trac.buzzcapture.com/)
Description	The TRAC site is used by the devops. team of Buzzcapture to document their projects & various internal tasks/processes. Some users can spend as much as 1 hour/day reading & writing in TRAC. As such the objective was to have a warm and eye friendly design with : muted colors, simple layout, standardised navigation, etc. The template designed for them has those characteristics & also keeps a good continuity with their client-facing site (www.buzzcapture.com). + Technologies: HTML, CSS, Photoshop, TRAC
January 2011-February 2011	Company Website for GrupoEnasis (Arad/Romania) (http://www.grupoenasis.ro)
Description	The "Grupo Enasis" company has started more than 10 years ago and has grown into a company with more than 100 employees. Their business focuses on three area : construction, forest exploitation & equipment rental and they have clients inside and outside Romania (ie. Germany, France, Hungary). The site has two main objectives : presenting their brand & experience and advertising their commercial offers. As such the site had to present their three areas of expertise in an equally balanced manner and allow the user to easily change the language. The colors are simple but powerful & the logo can be easily placed on a vast variety of materials (ie. from business cards to bulldozers) + Technologies: HTML, CSS, Javascript, Photoshop
Education and training	
2008-2010	MA Communication & Media, West University Of Timisoara,Romania
